

British Retail Consortium/Institute of Packaging Global Standard for Packaging and Packaging Materials

Your Challenges

Since its inception, the Global Standard for Packaging and Packaging Material (BRC/IoP), developed by the BRC Trading, continues to develop. Packaging manufacturers must keep not only abreast of updates to this innovative and evolving standard, but also, adhere to their legal obligations.

Our Solutions

The BRC/IoP Global Standard for Packaging and Packaging Materials was designed for the first time in 2001 to protect the consumer by establishing requirements and criteria for the evaluation of suppliers of packaging to Own Brand products to the UK retail market. The Standard is updated regularly and is now globally recognised and used as a framework for the production of safe, quality packaging materials complying with legislation.

Intertek has been involved in the development of the BRC/IoP Standard from the beginning and contributed to the preparation of the Standard.

Certification

We are UKAS accredited to carry out audits against the Standard for paper, plastics and metal packaging.

Training

Intertek is a BRC Approved Training Establishment. Our BRC training programme covers:

- **Implementing the BRC/IoP Global Standard for Packaging and Packaging Materials – Issue 3. This is a 2 day course.**
- **Upgrade course from the BRC/ IoP Global Standard for Packaging and Packaging materials, from Issue 2 to Issue 3, for those with a knowledge of Issue 2. This is a 1 day course.**

We provide a wide range of expert physical and analytical testing and certification services depending on your needs. As well as offering individual audits we offer bundles of audits to save you time, resources downtime and money.
